The Business Committee has met four times in preparation for the 42nd Annual Meeting of the Synod of Western Australia (WA) to design the meeting, agree on speakers and guests and generally undertake all the groundwork in preparing for the business of the meeting.

The Business Committee also reviewed the reports and proposals coming before the Synod and sought to ensure there is sufficient time allocated to each aspect of business.

Each school was requested to address specific topics from the Education Charter and the schools and agencies will be given time to address their reports individually.

Time has been allocated on Saturday 8 September (evening) for members to discuss any adventurous ideas for the future and mission of the church. It is hoped that this will be an enlightening discussion.

Following a significant number of requests in the feedback documents after the 41st Annual Meeting of the Synod of WA, it was decided to have a Worship Service for Synod members at Wesley College this year, instead of visiting congregations in the Metropolitan area.

Any questions and/or suggestions relating to Synod meetings can be directed to any member of the Business Committee.

On behalf of the Moderator
Rev David de Kock
